

*Communication with your down diver is critical to mission safety and crime scene documentation.*

Wireless

#8457

**SSB 2010**

- High-Power-Multichannel single sideband
- Adjustments can be made underwater
- Diver-to-diver, diver-to-surface or vice versa
- Voice driven menu talks the diver through all adjustments
- Frequency range: 30 kHz to 35 kHz
- 3 watt acoustic output power
- Operates on 8 "AA" alkaline batteries or optional NiCad battery pack
- Can operate as portable surface unit with optional CDK-6 Surface Accessory Kit
- Manufactured by OTS

Order#: 8457

Order#: 8457A – CDK-6 Surface Accessory Kit

Hardwire

#8458

**MK2-DCI**

- Two divers and surface tender positions
- Two wire (push-to-talk) or four wire (round robin) mode
- 20 watt power output
- Front panel speaker or optional headset
- Operates on two 6V alkaline lantern batteries or optional RB-6V rechargeable battery
- Remote speaker, record out, 12V in, headset with boom mic and binding post receptacles
- 20 hours of continuous use
- Manufactured by OTS

Order#: 8458

Hardwire

#6810

**MK-7 Buddy Line**

- Hard-wire underwater communications
- Two divers and surface tender positions
- Three-way, round robin conversation
- Record out plug, headset with boom microphone
- Power: 8 "AA" alkaline batteries or optional RGBM-15 NiCad battery pack
- Manufactured by OTS

Order#: 6810

Wireless

#6825

**STX-101 Surface Unit**

- Wireless surface station
- Four channel capability
- 35' transducer cable
- Hand-held microphone
- Operating range: 1000+ meters depending on sea conditions and noise levels
- Power: two 6V alkaline lantern batteries with springs or 2 RB-6V rechargeable batteries
- External power: 12V, DC @ min. 4 amp
- Manufactured by OTS

Order#: 6825

Wireless

#6811

**MKII Buddy Phone®**

- Compatible with Interspiro or Divator MK II masks
- Nominal range 50-500 meters depending on sea conditions and noise levels
- Earphone is ceramic with dynamic depth compensation
- Operates to a depth of 130 ft. of sea water
- Uses alkaline 9V transistor type battery or a high energy NiCad 9.6V rechargeable battery
- Manufactured by OTS

Order#: 6811

**Communication Adapters - Dive Rescue International Repair Services can manufacture any style or type of communication rope adapters to meet your needs. Contact Repair Services to discuss your adapter needs.**

### 4-Wire Communication Rope

- 10mm nylon kernmantle construction
- 4-wire communication cable in center
- Rope tensile strength 5,000 lbs.
- Add communication connectors (#6802 A, B, C) to rope ends

Colors: blue with yellow tracer or yellow with blue tracer  
Order#: 6802

### Communication Rope Bag

- Holds 200 ft. 4-wire communication rope
- Nylon mesh construction
- Draw cord top with shoulder strap

Color: blue  
Order#: 6806

### SP-100 Buddy Phone® Surface Station

- Nominal range 50-500 meters depending on sea conditions and noise levels
- Uses 8 or 16 AA alkaline batteries
- Hand-held microphone
- Front panel squelch control
- 12V external power accommodations
- Panel speaker
- Water resistant housing
- Options include: record out or headset receptacle
- Manufactured by OTS

Order#: 6813

### Diver Breakaway Pigtail

- For current, ice or surface-supplied air diving
- Allows diver to break from comm. rope
- 1 ft. long with quick disconnect in center

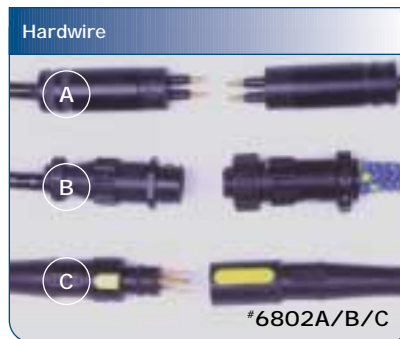

Colors: blue with yellow tracer or yellow with blue tracer  
Order#: 6804A – OTS High Use Connectors on ends  
Order#: 6804B – Male and female AMP connectors on ends  
Order#: 6804C – Male and female Marsh Marine style connectors on ends

### Tender Breakaway Pigtail

- Allows tender to walk away from anchored rope
- Communication unit can be worn under insulated clothing
- 6 ft. long with quick disconnect connector
- Male/female AMP connectors on ends

Colors: blue with yellow tracer or yellow with blue tracer  
Order#: 6804

### 4-Wire Underwater Communication Connectors

- Order#: 6802A – Snap connection, OTS High Use Connector
- Order#: 6802B – Screw connection, male AMP connector
- Order#: 6802C – Snap connection, waterproof Marsh Marine style connector

### Communication Modules

- Equipped with OTS ME-16R noise-canceling, floodable microphone
- 2" diameter dynamic earphones and molded strap clips
- Equipped with high use connectors unless otherwise indicated
- Manufactured by OTS

Communication Modules for Divator MKII (AGA) Mask  
Order#: 6822 – OTS EMA-2 AGA Communication Module  
Order#: 6823 – OTS EMA-2A AMP Communication Module  
Communication Module for DSI EXO 26 Mask  
Order#: 6820 – OTS EMX-2 Communication Module  
Communication Module for DSI SuperMask M-48  
Order#: 6826 – OTS EMD-2 Communication Module  
Order#: 6819 – OTS Earphone Holders (fits all the above)
