We sell quality equipment.

Trelleborg Viking is the recognized world leader in the design and manufacturing of diving drysuits for the public safety, military and commercial diving fields.

Viking has independent laboratory testing performed on their drysuits. This data is collected in the **Viking Diving in Contaminated Water** database to help customers make informed decisions and to minimize risks at all levels when diving in contaminated water. This database is available upon request.

The Viking Diving in Contaminated Water Database Manual.
