UNDERWATER CRIME SCENE TECHNICIAN II

Waiver & Release

_____ has requested a position in our Underwater Crime Scene Technician II
(student/ candidate name)
class. Our policy requires “only sworn law enforcement” be eligible for this class, unless expressly authorized by the Chief Law Enforcement Officer of the area, in which this student resides and plans to work.

The primary reason for this requirement is to avoid the unnecessary flow of police sensitive information and techniques into the hands of unauthorized personnel. In this class, techniques may be shown, which will teach confidential police and crime processing techniques to a degree, which would render a person very capable of avoiding prosecution, should that information be used inappropriately.

Therefore, in an effort to inform local law enforcement of such a person, we feel it very important to gain local permission for such non-sworn personnel to attend such an in-depth class.

I _____ Chief/Sheriff/ _____ of _____
(name) (other) (department)
do hereby understand the sensitive nature of the course and authorize the above named applicant for acceptance into this course. This person will or may be processing underwater crimes scene and related evidence for my department. (This does not include simple recovery of evidence).
