For information on how you can use Side Scan Sonar in your operations or to schedule an on-site demonstration, please contact MSTL at 800.447.4804 or [mstl@marinesonic.com](mailto:mstl@marinesonic.com) – [www.marinesonic.com](http://www.marinesonic.com)

# Summer Training Series

Become a trainer in one trip to Colorado – Public Safety Scuba Instructor, Dive Rescue I Trainer or Swiftwater Rescue Trainer.

Each year during the month of June in Fort Collins, Colorado, Dive Rescue International hosts a series of programs designed to allow our clients to complete prerequisites and trainer level programs in sequential order. If you enjoy a challenge, this could be the answer to your training dollar dilemma. One trip and you could return to your department as a trainer. Enrolling for multiple programs may entitle you to a discount on your tuition too!

Don't wait, sessions are filling up fast. Sign-up today for this great opportunity by contacting Dive Rescue International at 800.248.3483 or visit our web site at [www.diverescueintl.com](http://www.diverescueintl.com).
