

Electronics

Sea Otter/Sea Lion ROVs

- CCD color camera with 3.6mm 90° wide angle lens, 70° tilt and 2" infinity focus
- Operating depth 500 ft.
- 13" topside color monitor
- Ground fault and leak detection circuitry
- 4 variable speed and remote controlled motors
- 2 spare control lines
- Field maintainable
- Options include: digital compass, on-screen display, manipulator arm, 220 VAC and PAL format
- Manufactured by JW Fisher

Order#: 8519

Electronics

DV-1 Drop Video System

- High resolution black and white camera (4 Lux)
- Wide angle lens (40°)
- Two 100 watt lights
- Leak-detection circuitry
- Compact system for rapid deployment
- 120 VAC
- 150 ft. cable
- Options include: cable lengths to 1,000 ft., low light 60° black and white camera or color camera, monitors, altimeter and 12 VDC. 220 VAC and PAL format camera available for European use.
- Manufactured by JW Fisher

Order#: 8517

Electronics

BW-150 SeaView Camera

- Infrared enhanced black and white camera
- 400 line resolution
- Fully automatic iris and shutter
- 85° wide angle field of view
- Focal range: 6" to optical infinity
- 150 ft. cable standard (300 ft. optional)
- Weighs 6 lbs.
- Depth rated to 300 ft.

Order#: 8550

Electronics

Atlantis II Underwater Video Camera

- High resolution black and white camera
- Infrared 0 Lux NightVision
- Wide view 7" monitor
- 200 ft. steel mesh cable
- 9 hour rechargeable battery
- Waterproof case
- Switchable for mirror image
- Input for 2nd camera
- Video out for recording

Order#: 8555

Electronics

Video Ray 2000

- Runs on 110 or 220 alternating current power
- Maximum power requirements 300 watts
- Two Pelican cases
- 250 feet of neutrally buoyant tether
- Depth gauge
- Adjustable joystick sensitivity
- Compass
- Cumulative hour meter
- Spare parts
- Basic tool kit
- Owner's manual
- Two 20 watt variable halogen lights

Order#: 8560

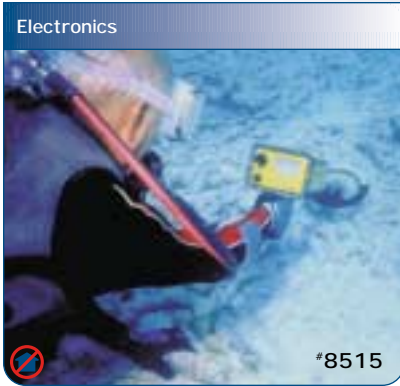

Video Ray Pro

- Features are the same as the Video Ray 2000
- Options include:
 - Manipulator
 - Rear facing, very low Lux black and white camera
 - Onboard 675 kHz mechanically scanning sonar
 - Rear facing lights (2 x 20 watts)

Order#: 8561 (not shown)

TECH TIP

Video cameras will decrease your dive time.

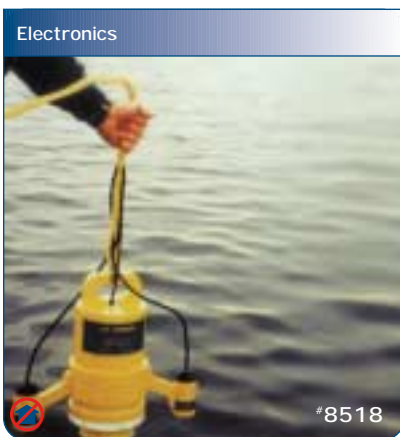

Pulse Metal Detectors

- Detects both ferrous and nonferrous metals
- Pulse induction circuitry
- Rechargeable battery pack (12 hours/charge)
- Land handle and hip-mount kit
- 3 sensitivity settings
- Underwater and above water earphones
- 7-1/2" coil
- 2-year warranty
- Options include: interchangeable coils, extra battery pack, 220 VAC charger and carrying bag
- Manufactured by JW Fisher

Order#: 8515 - 8X

Order#: 8516 - 6X

TOV-1 Towed Video System

- High resolution black and white camera (4 Lux)
- Can be towed or used as a drop video system
- Wide angle lens (40°)
- Two 100 watt tungsten halogen lights
- Leak detection circuitry
- Vertical or horizontal viewing
- 250 ft. depth capability
- Compact corrosion proof underwater housing
- 150 ft. cable
- Options include: low light (0.5 Lux) 60° black and white or color camera, monitors, 2 additional lights, altimeter, 12VDC and 500 ft. depth capability. PAL format camera and 220 VAC available for European use.
- Manufactured by JW Fisher

Order#: 8518

DHS-100 Diver Hand-Held Sonar

- Ideal for evidence and body recovery
- Audio return
- Built-in compass
- Effective range: 0-120 yards
- Operating depth: 300 ft.
- Manufactured by RJE International

Order#: 8512

Mark-Trak Underwater Homing System

- Mark and relocate multiple underwater sites
- Effective range: 1,000 ft.
- Operating Depth: 600 ft.
- Manufactured by RJE International

Order#: 8513

TAC-100 Diver Navigation Board

- Rugged, lightweight construction with adjustable chemical light
- Large, easy-to-read compass
- Digital depth gauge chronometer
- U.S. Special Forces approved
- Manufactured by RJE International

Order#: 8514
